

# Dust Test Kit

## SP3200

The TQC Sheen Dust Test Kit is meant to verify if the surface is ready for paints, inks and coatings to be applied. Quickly and accurately assess the quantity and size of dust particles present with a test and inspection solution that adheres to BS EN ISO 8502-3.

This comprehensive dust test kit contains everything you need, including a durable binder with dust comparator display board, dust assessment plate, illuminated magnifier, adhesive tape and a set of test record sheets.

The TQC Sheen SP3200 Dust Test Kit is used to assess the quantity and size of dust particles on blast cleaned surfaces prepared for painting.

### Ideal for

Protective Coatings, Corrosion Control, Surface Finishing, Powder Coating, Decorative Coatings, Building Maintenance.

### Standards

ISO 8502-3

### Features:

#### Compact and complete:

- A strong binder holds all necessary forms and visual comparator and has an integrated compartment for tape, scissors and illuminated magnifier. The binder closes with Velcro-strips to secure the content.

#### Convenient:

- Report Forms have space for 5 different test results. All the information that the ISO 8502-3 standard requires can be filled in using checkboxes or predefined areas. This guarantees complete and valid reports
- Display board shows clearly the different quantity ratings but also has a unique size-comparator for both light and dark dust particles. A black and white contrast files is included as well
- The pictorial manual shows the test method in a clear way and can be used in any "language".
- The Sample Transfer sheet is made of scratch resistant, high transparent plastic with pre-printed positions. It is conveniently fixed by a Velcro strip for easy detachment and replacement
- The strong binder is suitable for field use. It holds all forms and accessories and is locked by a Velcro strip

#### Quality:

- The illuminated magnifier has real glass lens for a clear, scratch free view

### Scope of Supply:

#### Strong binder with:

- Battery powered (2x AA) illuminated 10x magnifier with glass lens
- Adhesive tape acc. ISO 8502-3
- Scissors
- Pictorial manual
- Comparator display board in black and white, to assess dust quantity and dust particle size
- Sample transfer sheet
- Report forms (25 pieces)

### Ordering Information:

#### Catalog Number Article Description

SP3200	TQC Sheen Dust Test Kit
--------	-------------------------

### Consumables:

#### Catalog Number Article Description

SP3600	Spring loaded roller for dust tape test
--------	---

SP3220	Display Board (set of 2 pieces)
--------	---------------------------------

SP3209	Roll of adhesive tape
--------	-----------------------

SP3221	Sample Transfer Sheet (set of 10 pieces)
--------	--

SP7945	Loupe magnifier 10x with LED light
--------	------------------------------------
